Truth Trucks Rock DNC

Boston, MA – A fleet of Truth Trucks traveled convoy style through the streets of Boston during the Democratic National Convention giving cause for the Dems to rethink their pro-abortion position. The Truth Trucks boldly displayed the “product of choice.” The very “choice” that John Kerry and the Democratic Party chooses for many little baby boys and girls.

The Truth Truck convoy parked or drove continually through major political functions like fund raisers led by Bill and Hilary Clinton, Kerry’s home and church, the DNC head quarters, and all the outside activities. “The message was huge and inescapable,” said Troy Newman, OR President. Newman also said, “If you were in Boston, I’d be willing to bet you saw our Truth Trucks, they were THAT visible!”

The Truth Trucks were usually on the road from 8am until well after 10pm, which is 14 hours a day of hard-hitting pro-life truth!

One convention delegate claimed they had seen the Truth Trucks “countless” times during the week-long festivities and the message had challenged her to re-think her position on abortion.

After the convention, one Truth Truck followed Kerry’s campaign bus tour through, Iowa, Illinois, Missouri and Kansas.

Truth is unavoidable.

85 Year-old Abortionist Quits

San Diego, CA – Operation Rescue learned that long-time abortionist Phillip Rand has quit his killing job at Clinica Medica Para La Mujer De Hoy, an abortion mill in Chula Vista, California, just south of San Diego.

Rand quits after 30 years

According to OR sources, Rand had been unable to work because of illness before finally giving up his job. Rand worked for a number of abortion mills, moving on to a new location as each one was put out of business. At the end, he could no longer drive himself to work and was often seen hunched over and shuffling into the mill.

Rand was a notorious abortionist killing children in San Diego County for over 30 years. He once owned four abortion mills. According to investigative reports from the *San Diego News Notes*, Rand had “the worst record in the county for harming women during abortions.” He was sued more than 45 times with judgments against him that pushed him into bankruptcy in 1994.

Some of his victims included Ashleigh Pitchford who sued Rand in 1991 after a botched abortion. The year before, Deborah Brown sued Rand after she delivered a dead fetus in her home following an attempted abortion by Rand. The same year, Marcia Lattimore filed suit after her uterus was perforated by Rand at a now closed Womancare clinic.

“I would have been afraid to have him examine me – much less perform surgery – just on his looks alone,” said Cheryl Sullenger who spent nearly 20 years picketing Rand and sidewalk counseling outside his various abortion mills. “We thank God that the world is a safer place today because Rand is no longer in business.”

action report

Truth Trucks in High Gear

Truth criss crosses the nation in key areas

Summer and autumn have kept the Truth Truck fleet rolling in high gear. Our drivers focus on areas where the most numbers of people will view the hard truth of abortion. Operation Rescue is always refining our efficiency and effectiveness. Here are just some of the locations the Truth Trucks have been in the past few months.

Truth Trucks in "convoy" make the impact even more effective!

Kerry/Edward Rallies in Iowa, Kansas, Missouri, Illinois, Michigan, and Washington, DC, major college football games, huge NASCAR races like the Brickyard 500 and the Bristol 500, baseball games like the Cubs vs. White Sox in Chicago, NFL games in Cleveland, Ohio, and a million person walk at Mackinaw Island Bridge in Michigan.

A message impossible to miss!

The Truth Truck was also present at the first two Presidential debates in Miami and St. Louis.

In September, Operation Rescue toured the entire state of Louisiana, only to be stopped by Hurricane Ivan.

These are only some of the special events and do not include the regular tours through out Florida and the Mid-West. Operation Rescue has borne witness of the truth to millions of Americans in the last few months.

Only Hurricane Ivan stalled the Truth Truck, but the evacuation route was a perfect place to set up.

The Truth Trucks have been harrassed many times by police

News from Wichita

The Abortion Capital of the World

Wichita, KS – Here are just a few of our many activities in our ground-breaking ministry in the Abortion Capital of America. For fuller accounts of these and more stories, please visit our web site at www.operationrescue.org.

- **Two Abortion Nurses Quit!** *Two more of George Tiller's hard-to-replace abortion nurses, Yolanda Yoho and Catharine Nelson, have quit their jobs at Women's Health Care Services. So far NINE clinic workers have quit the killing business in OR's "Year of the Rebuke" Campaign.*

- **Rolling Stone Magazine** *published an article in August about OR's Wichita ministry. It was the most positive story about a pro-life ministry to ever appear in that extremely liberal publication.*

- **Operation Rescue "outs" Tiller abortionist Shelley Sella** *after receiving documentation that Sella was "wed" to another woman in a gay marriage ceremony in San Francisco earlier this year. The San Francisco Chronicle ran a story about postal outreaches in her neighborhood in their October 6, 2004, issue.*

- **Karen Myers was found "not guilty"** *in a jury trial where she was charged with disobeying the lawful order of a police officer. The trial stemmed from a brutal arrest that sent Karen to the hospital during an otherwise peaceful pro-life outreach at a Cher concert at the Kansas Coliseum last year. Karen plans to sue Sedgwick County for her*

injuries.

- **Another botched abortion at Tiller's** *sent yet another woman to Wesley Medical Center with sirens blaring and lights flashing. Tiller was photographed by Operation Rescue as he accompanied the woman, writhing in pain on the gurney, into the emergency room.*

Tiller rushes another victim of a botched abortion to the emergency room.

- **A Neighborhood Prayer Walk** *was held near the home of Tiller employee Marguerite Reed. Reed and her family returned home during the outreach and rescuers were able to calmly urge her to repent and leave her child-killing job.*

- **Susan G. Komen "Race for the Cure"** *– OR exposed the abortion/breast cancer connection with large banners and literature at the annual event. The Komen Foundation is a supporter of Planned Parenthood, the world's largest abortion provider.*

- **Through September, 2004 – Abortions are down 20% at Tiller's mill** *since "Year of Rebuke" Campaign was started in January, 2004, according to statistics reported by on-site sidewalk counselors who are present at WHCS each abortion day.*

Ken Reed stands for Life.

Please continue to pray for the bold and effective work happening in Wichita.

OR helped this nurse decide abortion is not health care.

Rejecting Truth is a Scary Proposition

Dear Friend,

I don't consider myself cowardly, yet there is something that is beginning to scare me, or I should say, there is one type of person that I find truly alarming. It's an individual who completely rejects the truth.

This type of person will refuse the facts even when they are presented with absolute unimpeachable information. This is the kind of person that frightens me the most.

I am sure you have met the sort of person I am talking about. He or she may seem perfectly normal until a subject like abortion is discussed.

In defense of life, a rational person will cite facts concerning the baby *in utero* who has a heartbeat, brain waves, can suck his real thumb and even feel pain. As these plain pieces of information are rejected, the apologist may dig into more technical evidence from medical professionals, scientists, and even the laws of nature to prove that the pre-born baby is indeed a human being.

The doubting person will still balk at these words and demand more. The most powerful argument on behalf of the pre-born is God's infallible Law, and the overwhelming philosophical conclusion that abortion is an insane and sinful act

of killing a fellow human that is forbidden by the Sixth Commandment.

But here is where the fear-provoking individual stands clear. They will say "I don't care about any of your so called evidence or religious beliefs; I still support abortion on demand."

This person is scary! They have rejected every objective detail in the unimpeachable mountain of truth supporting the argument against the killing of little babies. They clearly stand in the smallest minority. These people are living in utter denial and have succumbed to the lies of the evil one.

You probably know people like this. (Does a certain presidential candidate come to mind?) They won't be won through debate or evidence. Their only means of conversion will be through the work of the Spirit of God.

And to this end, I implore you to pray for Operation Rescue through our **Prayer for Life Tour**. We are traveling through the two most critical swing states of this election: Pennsylvania and Ohio. Please pray that our outreach will be used of the Holy Spirit to influence the hearts of the people to cast a vote for life! And pray for the future of our country. May those who are now blinded by lies and death have their eyes opened through the Gospel of Christ.

Our mission is to serve God in this capacity.

Boldly proclaiming the truth,

Troy Newman,
President Operation Rescue

For more information on the tour, please visit us at www.operationrescue.org

"These people are living in utter denial and have succumbed to the lies of the evil one."

Standing in front of the Harvard Club in Boston, these pro-abortion demonstrators where confronted with the truth but refused to listen.
